Variable Frequency Drive Cable

BELDEN

SENDING ALL THE RIGHT SIGNALS®

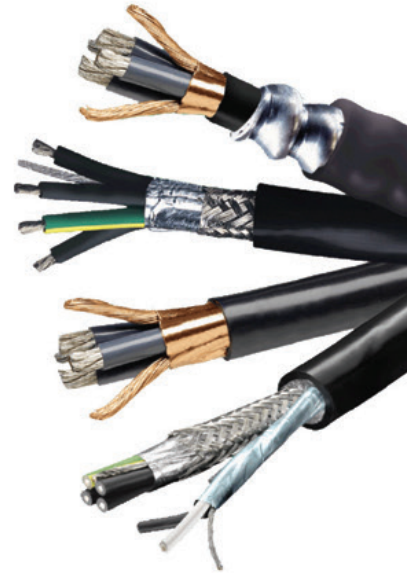

DO YOU DRIVE WITH CONFIDENCE?

Are you using what's best for your application?
Belden VFD cables are specifically designed for your motor & drive needs!

Just like a car, your system needs the right parts and reliable technology to run smoothly. If you are using motor supply cable, THHN, or tray cable to connect a drive to a motor, your system may not be protected from noise, voltage spikes, and corona discharge that can permanently damage the motor.

Belden VFD cables offer a variety of shielding and grounding options to meet your specific needs. Armored, signal pair, large gauge, and higher voltage VFD cable options are available and can be cut to length by Omni Cable.

SELLING EXCLUSIVELY TO ELECTRICAL DISTRIBUTORS SINCE 1977

OMNICABLE
EMPOWERING DISTRIBUTION

Your source for Belden products
and all your wire and cable needs!
