

Hello, Old Friend!

Familiar Form. New Technology.

Replace 400W metal halide
and save up to 65% in energy costs!*

Luminaire shown:
KAD HID replaced by
KARD-LED Retrofit Door (Above)
KAD-LED with optional
integral bi-level motion sensor (Below)

KAD-LED Complete Luminaire We've made the upgrade to LED easy...

Every KAD-LED luminaire comes complete with the Lithonia Lighting® Universal Mounting Bracket, which allows the KAD-LED luminaire to mount to virtually any existing drill hole pattern on both square and round poles.

KARD-LED Retrofit Door ...and the retrofit door is even easier!

If you already have a KAD HID luminaire, you can leave the upper housing in place and upgrade to LED by replacing the glass door with the KARD-LED retrofit door. Everything is on the retrofit door, and by making three electrical connections, the door can be installed in less than three minutes! See for yourself at www.acuitybrands.com/kard-led
