EVERLINE[®]

LED SIGN TUBE | **UNIFORM**

For Linear Fluorescent Lamp Replacement

The EVERLINE® Sign Tube is an LED outdoor replacement solution for T12HO or T8HO lit signs. LED Technology requires substantially less maintenance than fluorescent systems and consumes up to 60% less electricity. Designed for fast and easy installation, the Sign Tube uses the existing RDC sockets without modification. The EVERLINE® Sign Tubes feature 90° adjustable RDC style endcaps for correct lamp orientation in vertical or horizontal installations, regardless of how the socket was originally installed.

The durable acrylic tube contains LEDs that have excellent light distribution and is available in single-sided or double-sided configurations. As a Class II, 24V Constant Voltage product, the EVERLINE® Sign Tube can be installed using daisy-chain or parallel wiring.

With EVERLINE® LED Sign Tubes, signs can be seamlessly converted from existing fluorescent to LED technology reducing maintenance related service calls and reducing the end users over all utility cost.

Universal's LED Sign Tube is a one-to-one LED retrofit replacement solution for an existing fluorescent sign box. When installed with a Universal LED driver, our LED Sign Tube is up to 60% more efficient than traditional fluorescent lamp installations.

Ordering

Part Number	Length	Power (W)	Lumens	CRI	CCT
Single Sided					
ST24-865-SS	24"	6W	680lm	82	6500

ST108-865-DS	108"	54W	6102lm	82	6500
ST120-865-DS	120"	60W	6780lm	82	6500

Easy Installation

- 24V Constant voltage product allows for simple class II wiring.
- 90° Adjustable RDC style endcaps for correct lamp orientations.
- Ideal for Vertical or Horizontal installation.
- Utilizes the same spacing as standard fluorescent systems.
 - 12" on center spacing
 - As close as 5" to the sign face.
- Designed for daisy-chain or parallel wiring.

Superior Performance

- Up to 60% more efficient than fluorescent systems at over 113lm/W.
- 340lm/ft delivered to the sign face for bright and even illumination.
- Run up to 32' of single sided (16' double sided) tubes on one L24V100UNV-A or L24V100UNV-Q 100W power supply.
- Rated for more than 60,000 hours of usable life.
- 6500 CCT
- 5 year limited warranty.
