WE GET IT

24/7 Emergency Material Access

 **legrand®**

MORE PROTECTION. MORE FUNCTIONALITY.

IN MORE ENVIRONMENTS.

SAFETY IS OUR CODE

When we invented the first GFCI receptacle, our goal was to keep people safe. Today, because of their proven effectiveness, they are required by code in numerous locations. That's why we've made it our mission to offer intelligently designed solutions for every residential and commercial environment.

Whether the jobs call for receptacles, combination devices, portable, tamper-resistant, weather-resistant, RoHS-compliant, NAFTA-compliant, hospital grade, audible alarm, or specification grade — there's a reliable P&S GFCI innovation for you.

LEGRAND

KEEPS THE INNOVATIONS COMING

At Legrand, we've been providing real solutions to real problems for so long, it's almost second nature. From the world's first GFCI receptacle in 1971, to the introduction of ground-breaking SafeLock® Protection some 30 years later, we've been delivering GFCI innovations designed to enhance safety, shorten installation times, and increase productivity for more than four decades.

Now, we've reset the bar on electrical safety again with our newest innovation: the P&S Self-Test GFCI Receptacle.

Designed to exceed UL requirements, it's **the only GFCI that tests itself every three seconds**—instead of the industry standard three hours—providing a level of reliable electrical protection that's unprecedented. The new device is also designed with a thinner profile to make more room for wires in the wall box. That means it's not only the safest GFCI receptacle out there, but the easiest to install as well.

Self-Test GFCI Technology—conducts an automatic test **EVERY THREE SECONDS**, ensuring it's always ready to protect.

Patented SafeLock® Protection — if critical components are damaged and ground fault protection is lost, power to receptacle is disconnected.

High-impact-resistant, thermoplastic construction for superior strength and durability.

Thinner profile speeds installation by leaving more room for wires in the box.

Tamper-resistant automatic shutter system prevents young children from inserting common household objects.

Meets 2015 UL requirements

FSUL Listed (Federal Specification WC596)

Ground terminal back-wire clamp for fast installation.

The most durable GFCI available. Exceeds UL943 voltage surge requirements; survives 100x the required UL 3kA/6kV voltage surge test cycles.

The indicator light flashes if the device fails the self-test, signaling that the GFCI should be replaced.

Two back-wire holes per termination add wiring flexibility, eliminate pigtail, and save box space.

Prevents line-load reversal miswire: no power to the face or downstream receptacles if wired incorrectly.

A SAFETY SOLUTION FOR EVERY HOME

IT ALL COMES DOWN TO KEEPING PEOPLE SAFE.

Our broad Pass & Seymour product line includes all the residential GFCI devices you'd expect from an industry leader, plus a number of truly innovative solutions designed to meet today's (and tomorrow's) special requirements, including:

- Spec Grade
- Tamper-Resistant
- Audible Alarm
- Combination Switch
- Combination Night Light
- Weather-Resistant
- RoHS-Compliant

TAMPER-RESISTANT NIGHT LIGHT/GFCI COMBINATION

Ensures safety and convenience

- Sealed night light with Lexan® lens prevents tampering
- LED illumination with a 20+ year life expectancy means no bulbs to change
- Photocell turns night light ON in the dark — OFF in the daylight
- Performs a self-test every 3 seconds

1597NLTTRWCC4

MAKE NIGHTTIME NAVIGATION AUTOMATIC.

Ideal for kitchens, bathrooms, hallways, stairs, nurseries, and more, this award-winning device, with built-in night light, delivers advanced safety and protection.

TAMPER-RESISTANT GFCI

Helps keep children safe

- Patented shutter system helps prevent insertion of foreign objects
- Patented SafeLock® Protection — if critical components are damaged and ground fault protection is lost, power to receptacle is disconnected
- Meets *NEC*® requirements
- Performs a self-test every 3 seconds

1597TRW

AUDIBLE ALARM GFCI

Protection you can see and hear

- Provides an audible warning of a tripped condition and that power to a receptacle is interrupted
- Ideal for basement sump pumps and other areas where a GFCI indicator light might not be readily apparent
- Meets *NEC*® requirements
- Performs a self-test every 3 seconds

1597TRAW

ROHS-COMPLIANT GFCI

Designed to meet environmental regulations

- Meet all the requirements of the Restriction of Hazardous Substances regulations
- Provides the same functionality and protection as our traditional GFCI
- Performs a self-test every 3 seconds

1597TRRW

DECORATOR SWITCH/GFCI COMBINATION DEVICES

Ideal for remodeling

- User-preferred up-and-down switching combined with standard GFCI safety features
- Provides more functionality in single-gang opening
- Tamper-Resistant for added safety
- Ideal for bath and kitchen vent fans
- Performs a self-test every 3 seconds

1597SWTTRWCC4

INNOVATIONS THAT TRANSLATE INTO

FASTER COMMERCIAL INSTALLATIONS

SPEED AND RELIABILITY ARE THE KEY TO SUCCESSFUL COMMERCIAL INSTALLATIONS.

Our GFCIs are designed to meet those needs...and then some. That's because we've been offering GFCIs longer than anyone else, so we know what you need to do the job right the first time. Take a look at our innovative line—we think you'll find a solution that perfectly matches your needs. Every time.

Spec Grade	PlugTail®
Hospital Grade	Audible Alarm
Tamper-Resistant	Isolated Ground
Weather-Resistant	Combinations
NAFTA-Compliant	Dead Front
RoHS-Compliant	

P&S PLUGTAIL® GFCI

The fastest-installing GFCI ever. Hands down.

- Beats tough deadlines on any commercial job
- No exposed terminals creates a finger-safe application before, during, and after installation
- Available in Spec Grade, Hospital Grade, Tamper-Resistant, and LED/Night Light combinations
- Performs a self-test every 3 seconds
- Enables fast, affordable upgrades as space evolves

PT2097TRW

PlugTail's patented plug and connector design enables simultaneous, one-click termination of all terminals.

HOSPITAL GRADE GFCI

- Meets rigorous requirements of Hospital Grade supplement of UL 498
- Available in Tamper-Resistant and LED/Night Light combinations
- Performs a self-test every 3 seconds

PT2097HGTRW

SPECIFICATION GRADE GFCI

- 20 amp designed for heavy commercial use
- High-impact-resistant, thermoplastic construction for superior strength and durability
- The most durable GFCI available. Exceeds UL943 voltage surge requirements; survives 100x the required UL 3kA/6kV voltage surge test cycles
- Performs a self-test every 3 seconds

2097TRW

NAFTA-COMPLIANT GFCIs

Designed to meet government regulations

- GFCIs that meet the requirements of the Buy American provision of the American Recovery and Reinvestment Act
- Provides the same functionality and protection as our traditional GFCI
- Performs a self-test every 3 seconds

PORTABLE GFCIs

- Rugged polycarbonate housing stands up to impacts and hard use
- Water-resistant design for wet and corrosive indoor/outdoor environments
- Automatic reset ensures continuous power for pumps, portable signs, lights and engine heaters
- Watertight rubber cord grommets seal the GFCI from the environment
