

# Circuit wire management is now completely **SPOOL-PROOF.**

The SIMpull® CoilPAK™ payoff completes the SIMpull™ Circuit Management System, taking heavy, cumbersome spools out of the process for good. By themselves, each of these innovative components can help improve your productivity. But when used together, they combine to help provide a significant impact on the time, margins and labor associated with all of your circuit pulls.

**NEW**

### SIMpull™ CoilPAK™ Cart

Easily maneuverable cart holds up to 8 SIMpull CoilPAK payoffs.

### SIMpull® WireBARREL™

Make your home run pulls more profitable and productive with our NoLube® SIMpull THHN® branch circuit wire, paralleled into a drum.

**NEW**

### SIMpull™ CoilPAK™ Hand Truck

Transport and install multiple SIMpull CoilPAK payoffs directly from the SIMpull CoilPAK Hand Truck.

### SIMpull BENDuit™

Unique dual bending shoe is designed for both 1/2" and 3/4" EMT, which can increase your bending speed by 30% on your second bend.

**NEW**

### SIMpull™ CoilPAK™ Dolly

Another great alternative for transporting and installing multiple SIMpull CoilPAK payoffs.

**NEW**

### SIMpull™ GUIDEit™

This unique router mounts easily to the panel can and helps guide paralleled conductors into the panel and the conduit.

**NEW**

### SIMpull™ SlikROPE™

Incredibly low coefficient of friction, ultra-low stretch, lightweight and UV resistant. Even our rope is revolutionary.

**NEW**

### SIMpull GRIPit™

With up to 7-wires per strip, this reusable pulling head lets you easily attach circuit wire without stripping or taping.

**Revolutionize the way you install circuit wire.**

- Tangle Free
- NoLube® SIMpull™ THHN
- Effortless, inertia-free integral payoff system
- Ergonomic portable package, less than 50 lbs
- Rugged and stackable, self-contained system protects wire
- No se enreda.
- SIMpull™ THHN no requiere lubricante
- Sistema entregador libre de inercia, fácil de usar
- Embalaje portátil y ergonómico, menos de 50 lb
- Sistema robusto, duradero y apilable que protege el cable

# QUIT SPOOLING AROUND.™

And meet the SIMpull® CoilPAK™ payoff, the most versatile circuit wire management solution ever.

## GRAB it.

Whether you choose 14-, 12- or 10-gauge wire, each SIMpull CoilPAK payoff is ergonomically designed and weighs under 50 lbs., making it easier—and safer—to transport throughout the jobsite.

## CART it.

The SIMpull™ CoilPAK™ Cart is designed to hold up to 8 SIMpull CoilPAK payoffs, for easy pulling, transporting and storage.

## LIFT it.

The SIMpull CoilPAK payoff's tangle-free design and easily stackable construction eliminate the need for setup. Just drop and pull from just about anywhere—even straight off of a lift.

## DON'T SWEAT it.

With its inertia-free pulling design and easy portability, the SIMpull CoilPAK payoff completely revolutionizes how you install branch circuit wires. It's now as easy as stop, drop and pull.

## STACK it.

The unique nesting design of the SIMpull CoilPAK payoff makes it easy to stack several high on the floor, either for storage or pulling. No payoff system is required.

## PULL it.

Or push it. Either way, the SIMpull CoilPAK payoff will make for a safer, easier, more efficient installation. After all, the SIMpull CoilPAK payoff and the SIMpull® WireBARREL wire drum are the only products in the industry that feature circuit-sized NoLube® SIMpull THHN® wire. And the unique SPOOL-PROOF™ design of the SIMpull CoilPAK payoff means you're only pulling the weight of the wire, not the weight of an entire spool. So it does wonders for your back as well as your productivity.

## PAIR it.

As part of the SIMpull™ Circuit Management System, the SIMpull CoilPAK payoff can also work as a seamless complement to the SIMpull® WireBARREL™ wire drum, adding a new level of flexibility to all circuit wire installations.
