

Low-Profile Expandable In-Use Weatherproof Covers

WP6000/WP6200/WP7000/WP7200

Low-Profile, Expanded Possibilities

New Low-Profile Expandable In-Use Weatherproof Covers by Intermatic provide a sleek, easy-to-use alternative to traditional in-use weatherproof cover options. The unique design of the WP6000, WP6200, WP7000 and WP7200 Series includes an expandable front window that can be collapsed to save space when not in use. This improves aesthetics while delivering dependable, code-compliant protection for a range of outdoor applications.

Available in standard and extra-duty configurations, our new plastic Low-Profile In-Use Covers are an excellent upgrade to any home or business.

Features and Benefits

- **Improved Aesthetics** – Unlike traditional covers, Low-Profile In-Use Covers include an expandable front window that can be collapsed to save space when not in use
- **Simple, Secure Access** – An innovative new design provides a no-hassle latch with lockable hasp that can be opened effortlessly with one hand
- **Quick Installation** – GFCI pre-set; keyhole slots help electrical contractors complete installation in minutes
- **Configuration Options** – Available in single-gang and double-gang configurations, as well as standard and extra-duty; select white, gray or bronze color options; single-gang models accommodate both vertical and horizontal installations
- **Code Compliant** – WP7000 and WP7200 Series Low-Profile In-Use Covers comply with 2017 NEC Article 406.9 (B)(1) for wet locations and Extra-Duty applications ; CEC 26-702 Compliant; RoHS Compliant

Applications

- Residential
- Commercial
